

# NOAA Climate Data Record Annual Meeting

August 4 – 6, 2015

## **Panel Discussion II: Use Cases and Applications from other Partners (August 5<sup>th</sup>)**

Moderator: DeWayne Cecil

### **Members:**

John Dwyer (USGS)  
Brian Killough (NASA)  
Carl Schreck (CICS-NC)  
Marty Ralph (Scripps)  
Jörg Schulz (EUMETSAT)  
Dick Dee (ECMWF)

### **Questions:**

1. Applications commonly use Thematic CDRs blended with in-situ data to provide added value
  - Describe an example application from your experience
  - Non-scientific users apply climate data and information based on these applications; please provide an example that you may be familiar with
2. Global climate modelers generally use CDRs for setting initial and boundary conditions
  - Describe an example application from your experience
  - Are you aware of more direct utilization of CDRs
3. Precipitation applications are particularly relevant to NCEI's mission
  - Provide an example(s) from your community
